About *Us*

Who *WE* Are ?

When we first started, a remark was made about our work: **"Even a child can capture a photo like this."** At that moment, it could have been discouraging. But instead of letting it break us, we embraced it. We wore that comment as a reminder to stay humble, to keep learning, improving, and moving forward.

And, that's how BudakTadika was born, a name that represents where we came from, how far we've grown, and our belief that creativity thrives when we remain open to learning, no matter how small the steps.

Over the past 6 years, we have been entrusted by countless clients to capture their most meaningful moments and stories. From weddings and personal milestones to brand campaigns and live events, we've grown into a company that proudly says: "We turned criticism into motivation." Today, we stand stronger, more creative, and more trusted than ever
